Becoming Address Verified

Address Verified members

Address Verified helps create a more trusted online marketplace.

Traders who have verified their address will be shown as Address Verified throughout Indian Heritage. For business memberships, the address is where the business operates from, or its registered address for service. For individual memberships it is the residential address of the trader.

How do I get Address Verified?

We verify your address by sending you a personal verification code in the post.

When you receive your code you enter it into Indian Heritage to complete the process. The code is unique to you and can only be used ones to address verifies the Indian Heritage membership that requested it.

What are the benefits to sellers?

Buyers can purchase from "Address Verified" sellers with greater confidence. Sellers are therefore likely to increase their sales and profits by becoming "Address Verified".

Can Indian Heritage guarantee where traders live or operate from?

We can't guarantee the traders current address. Indian Heritage does, however, know with some confidence that the individual that signed-in and requested to become Address Verified is the same person that entered the Personal Verification Code we sent them.

We therefore have a physical address related to an email address at a certain point in time.

What if I move?

You don't retain your Address Verified status when you move. As soon as you change the address on the portal, you loose your Address Verified status, You have to re-apply for Address Verification Status. Please keep your address details up to date al all times on Indian Heritage as we occasionally do surprise checks on your address.
