Photo Policy & Guidelines

A clear, impressive and crisp photo of a product is an important way to attract a buyer on Indian Heritage.

Photo policy

- Your main listing photo (i.e. the image that appears in search results and first on your listing) must show the product you are selling clearly.
- Product images are the front door to your listing page. Buyers like images that show the product they're searching for. This policy should help customers find what they're looking for, and help with your sales.
- The minimum size of photo should be 200 pixels on the longest side in order to be uploaded.

*As always, we expect you to be careful when you upload photos. Please do not upload anything that could be offensive to others. We will remove photos that we think is not appropriate for our community.
